

Name:

Bees

Bees are insects. They have six legs, four wings, and three body parts.

Bees make honey. They are the only insect in the world that makes food that humans can eat.

The queen bee is the most important bee in the hive. The queen bee can lay up to 800,000 eggs in her lifetime.

Write 3 questions about bees.

Don't forget to use a question mark at the end of each question.
