

Spiky Things

Name: _____

Spiky Things

On a separate page, draw a picture of these 'spiky' animals and plants.

- | | |
|-------------|-----------------------|
| echidna | Thorny devil (lizard) |
| rose | lobster |
| starfish | cactus |
| puffer fish | sea urchin |

Do you know any more spiky animals and plants?

Spikes and Spines

On a separate page, write why some animals have spikes or spines.

Some pants and plant seeds are very spiky.

Find some very spiky seeds and draw them.

Find out what type of seeds they are.

Why do you think these seeds are spiky?

Spiky Self Portrait

Draw a picture of yourself (self portrait) with very spiky hair.

Do you look very different?

Spiky Sculpture

Using materials such as toothpicks, sticks, plasticine, play dough and paper, make a model of your favourite spiky animal.

Adjectives

Adjectives tell you more about nouns. They are describing words.

Replace each adjective (**bold**) with the word that most closely matches its meaning.

An echidna has **pointy** spines. _____
(sharp, blunt)

A rose has **hard** thorns. _____
(tough, soft)

A lizard climbed up the **prickly** cactus. _____
(smooth, spiky)

That sea urchin has **thin** spikes. _____ (fat, skinny)

Addition

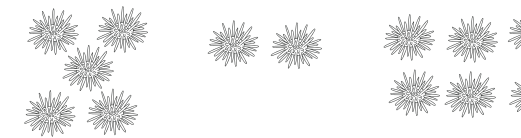

How many sea urchins?

3 + 2 + 5 = ____

____ + ____ + ____ = ____

____ + ____ + ____ = ____
