

Name: _____

Subtract numbers up to 1000.

$$\begin{array}{r} 319 \\ - 192 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 357 \\ - 125 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 343 \\ - 219 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 820 \\ - 183 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 271 \\ - 226 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 984 \\ - 748 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 387 \\ - 270 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 850 \\ - 546 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 433 \\ - 248 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 857 \\ - 595 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 820 \\ - 547 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 612 \\ - 171 \\ \hline \\ \hline \end{array}$$

Working Mathematically

1) In our school we have 647 students in total. If 365 are boys, how many girls? _____

2) Before the sale we had 865 books. During the sale we sold 593. How many books do we have left? _____

3) There were 765 birds in the aviary. 497 escaped through a hole in the net. How many birds are left? _____

4) In his first show a clown juggled 682 times before dropping a ball. In his second show he juggles 356 less times. How many times did he juggle in the second show? _____

5) 432 athletes started the marathon. 365 finished the race. How many didn't finish the race? _____
