

Tracking The Sun

Name: _____

Date: _____

 **Reminder:** Your eyes can be damaged by the light of the sun. Never look directly at the sun.

Find out :

- * What time did the sun rise today?
- * What time will it set?

**Do you think the sun rises at the same time every day?
Why /why not?**

Record:

- * Go outside every hour and locate the approximate position of the sun.
- * Label the time of day on the chart.
- * Guess the times for the empty sun positions on your chart. (Write your guesses in red)
