

# What happened to the dinosaurs?

Name:

Date:

Which word from the text means:

ideas \_\_\_\_\_

plant and meat eaters \_\_\_\_\_

rubbish \_\_\_\_\_

sleep \_\_\_\_\_

plant eaters \_\_\_\_\_

having no living members \_\_\_\_\_

meat eaters \_\_\_\_\_

wipe out \_\_\_\_\_

It is believed that an asteroid hit the earth's surface causing rubbish and dust clouds to spread throughout the earth. What was the effect of this event?

What caused the herbivores to die?

What caused the carnivores to die?

Why aren't any dinosaur fossils found above the layer of sediment caused by the meteor strike?
