

Name: _____

Mixed Tables

$6 \times 2 = \underline{\quad}$

$5 \times 1 = \underline{\quad}$

$7 \times 0 = \underline{\quad}$

$4 \times 2 = \underline{\quad}$

$3 \times 8 = \underline{\quad}$

$6 \times 9 = \underline{\quad}$

$9 \times 8 = \underline{\quad}$

$4 \times 1 = \underline{\quad}$

$2 \times 10 = \underline{\quad}$

$4 \times 4 = \underline{\quad}$

$3 \times 6 = \underline{\quad}$

$5 \times 5 = \underline{\quad}$

$6 \times 9 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

$9 \times 1 = \underline{\quad}$

$8 \times 5 = \underline{\quad}$

$6 \times 7 = \underline{\quad}$

$4 \times 9 = \underline{\quad}$

$7 \times 5 = \underline{\quad}$

$1 \times 8 = \underline{\quad}$

$9 \times 1 = \underline{\quad}$

$7 \times 2 = \underline{\quad}$

$4 \times 7 = \underline{\quad}$

$5 \times 2 = \underline{\quad}$

$5 \times 1 = \underline{\quad}$

$0 \times 4 = \underline{\quad}$

$8 \times 9 = \underline{\quad}$

$4 \times 10 = \underline{\quad}$

$5 \times 9 = \underline{\quad}$

$4 \times 9 = \underline{\quad}$

$7 \times 2 = \underline{\quad}$

$5 \times 3 = \underline{\quad}$

$3 \times 3 = \underline{\quad}$

$4 \times 6 = \underline{\quad}$

Working Mathematically

- 1) I swim 8 laps of the pool every morning before school.

How many laps do I swim every week?

- 2) A block of holiday units is 6 floors high. There are 4 units per floor. How many units in the block?

- 3) I bought 8 packets of yoghurt tubs. If each packet contains 6 tubs, how many yoghurt tubs altogether?

- 4) There are 2 cars parked at each house in the street. If there are 9 houses in the street, how many cars?

- 5) We have 6 students in each group for Reading lessons. There are 5 groups in both of our year 6 classrooms. How many students in year 6?
