

Name: _____

10 x Tables

$7 \times 10 = \underline{\quad}$ $10 \times 9 = \underline{\quad}$

$3 \times 10 = \underline{\quad}$ $4 \times 10 = \underline{\quad}$

$0 \times 10 = \underline{\quad}$ $1 \times 10 = \underline{\quad}$

$1 \times 10 = \underline{\quad}$ $5 \times 10 = \underline{\quad}$

$4 \times 10 = \underline{\quad}$ $10 \times 4 = \underline{\quad}$

$7 \times 10 = \underline{\quad}$ $10 \times 3 = \underline{\quad}$

$9 \times 10 = \underline{\quad}$ $10 \times 9 = \underline{\quad}$

$10 \times 5 = \underline{\quad}$ $10 \times 0 = \underline{\quad}$

$10 \times 10 = \underline{\quad}$ $3 \times 10 = \underline{\quad}$

$10 \times 0 = \underline{\quad}$ $8 \times 10 = \underline{\quad}$

$10 \times 10 = \underline{\quad}$ $10 \times 10 = \underline{\quad}$

$8 \times 10 = \underline{\quad}$ $7 \times 10 = \underline{\quad}$

$10 \times 4 = \underline{\quad}$ $9 \times 10 = \underline{\quad}$

$10 \times 9 = \underline{\quad}$ $2 \times 10 = \underline{\quad}$

$10 \times 2 = \underline{\quad}$ $10 \times 2 = \underline{\quad}$

$8 \times 10 = \underline{\quad}$ $10 \times 7 = \underline{\quad}$

$10 \times 7 = \underline{\quad}$ $10 \times 8 = \underline{\quad}$

Working Mathematically

- 1) There are 10 balls in a set.

How many balls if I buy 6 sets? _____

- 2) I bought 2 punnets of strawberries. Each punnet has 10 strawberries.

How many strawberries altogether? _____

- 3) There are 10 children in each sports group.

How many children in 8 groups? _____

- 4) Lewis arranged his toy cars into 5 rows of 10.

How many cars does he have?

- 5) Each box holds 10 bottles of juice.

How many bottles in 7 boxes? _____
