'Hairy' Self Portraits

Print at least four large copies of a picture of yourself.

On each picture (self portrait), change your hair colour and your hair style. Be creative.

You may also add facial hair such as a beard or moustache.

Ask your family and friends which portrait was the most interesting.

Animal Hair and Fur

Some animals have very long hair or fur. Examples of 'hairy' animals are highland cattle, the colubus monkey, sheep, and a male lion. Horses have a long hairy tail and some cats and dogs have very long hair.

Why do some animals have long hair or fur?

List and draw some hairy animals.

What is your favourite hairy" animal?

Writing

Write each of these "hair" words in a sentence.

- | | |
|----------|-----------|
| bald | braid |
| fur | blonde |
| ponytail | redhead |
| pigtail | hairstyle |
